CAPITAL MARKETS

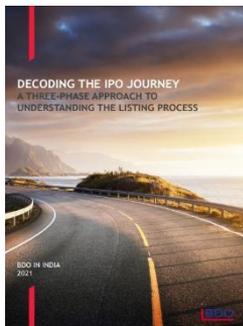

For businesses considering the 'Going Public' decision as a priority, it is imperative for management to evaluate and address financial reporting, governance, regulatory & accounting considerations, amongst the many other items on the 'Going Public' checklist.

To provide businesses an overview of the key aspects that need to be addressed through this transition, we have divided this exhaustive process into three critical phases and can help companies navigate through each of these phases.

- Readiness Phase
- Listing Phase
- Post Listing Phase

Our implementation of centralized service model for Finance SSC is customised to how the client is organised - all work can be centrally carried out by the India team with the bulk of the work being carried out at client's office / shared service center in India. While our audit work relating to controls and substantive testing is carried out in accordance with ISA, the accounting framework can be IFRS/ US GAAP. Our team will include IFRS/ US GAAP experts. We liaise with in-country experts to carry out the audit as per respective local country GAAP as necessary.

Our centralized delivery solution is designed specifically to support the global model of shared service delivery. With BDO India's extensive experience in enabling delivery of audits in the shared service environment of overseas entities, we are best positioned to support an efficient and timely delivery.

Quality is driven by the team and the effectiveness and value of our communications with the management and the Board of Directors

Our overall service commitment is aligned with our assurance service delivery approach

A ROBUST AND INDEPENDENT AUDIT USING TECHNOLOGY

AUDIT PROCESS TOOL

Our audit software and documentation tool 'APT' is an integral part of our audit methodology. Our professionals engage APT to devise and perform appropriate, risk-based audit procedures and testing based on applicable International Standards on Auditing (ISA), as well as to factor in engagement and industry-specific objectives and circumstances. APT also contributes to a globally consistent approach, allowing our auditors across the globe to access the same audit programs and instructions, applying the same methodology across the components of your engagement.

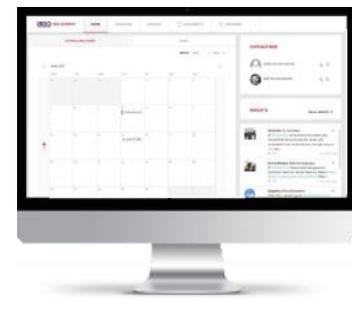

BDO ADVANTAGE

BDO Advantage is our global initiative to go beyond traditional audit techniques and enable greater analysis via audit data analytics within the audit through use of data visualisation, data correlation, data comparison and other shared techniques. These techniques can be used as part of risk assessment, audit evidence gathering and provision of greater insights and will support more efficient and effective audit strategies. BDO Advantage combines the benefits of available technologies with our knowledge and understanding of our clients' businesses.

BDO GLOBAL PORTAL

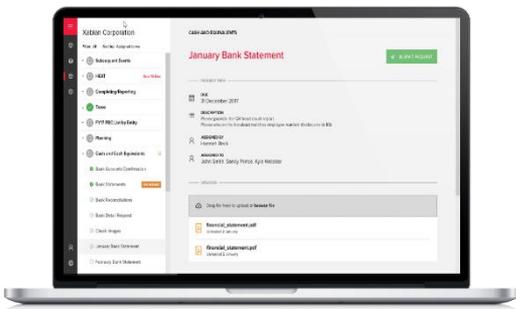

BDO Global Portal enables us to deliver to our clients a range of services, tools, apps and information in a seamless way through a flexible, appealing and secure environment. It is an online collaboration space for BDO and the clients, including project management and workflow tools such as electronic signatures. It provides clients 24/7 access to BDO news and knowledge. It provides the ability to efficiently and securely share documents between clients and BDO.

A ROBUST AND INDEPENDENT AUDIT USING TECHNOLOGY

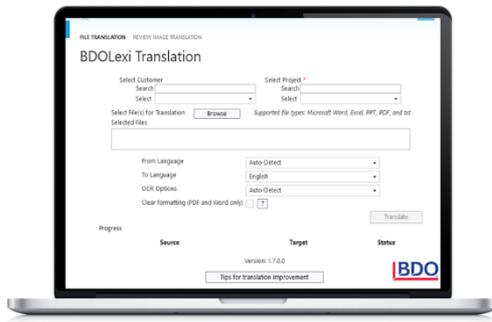

BDO EXCHANGE

BDO Exchange is a private, secure website designed to streamline exchange of information and assist review and communication. It allows us to exchange information and messages, providing you with oversight of how the audit is progressing and accessing the latest information which may be helpful to you and your organisation. It enables both teams to track when items are due, overdue and due for completion by audit area, by individual and by your entire BDO global team.

BDOLEXI

BDOLexi is a tool with the ability to dynamically translate documents, images and other file types to enable our engagement team to review audit working papers and source documents written in foreign languages. This proprietary software allows us to maintain data security and confidentiality of client documents which require translation. It reduces time and expenses incurred when visiting foreign subsidiaries for workpaper reviews and the time it takes to review and test foreign sourced documents.

AUDIT MANUAL

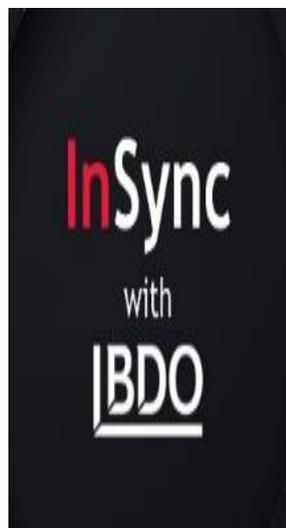

Audit Manual is designed to enable us to perform our engagements in line with International Standards on Auditing (ISAs), International Standards on Review Engagements (ISREs), International Standards on Assurance Engagements (ISAEs), or International Standards on Related Services (ISRSs) as issued by the International Auditing and Assurance Standards Board (IAASB) & to comply with overall objectives of those standards.

$$\frac{\text{PERFORMANCE (101)} + \text{PREFERENCE (80)}}{2} = \text{TRIM INDEX (91)}$$

Excellent performance for us is a pre-condition for good relationships but needs to be transformed into a preference for our brand.

The TRI*M Index covers both dimensions in one KPI and best reflects the strength of client relationships

CLIENT TESTIMONIALS

“We have been working with BDO for our component audit for 2018 and full scope US GAAP audit for 2019. The key for us to onboard BDO was the business-oriented work and assurance practice that the partners and their teams demonstrated; they understand the BPO industry and hence their assurance related work was that much easier. We could approach their senior members at all times. The engagement partner was personally available almost every day despite his other engagements. Being a US NYSE listed entity, our accounts have to be audited under PCAOB & SEC guidelines. This necessitates the use of US BDO partners, but the Team made sure we had a single point of contact at all times.”

Ramesh Kamath

Ex CFO

Startek Inc (Formerly part of Essar Aegis group)

“Thank you for the continued support on our statutory audits. We appreciate the exceptional client service from BDO. The team’s swift & agile approach has helped us drive efficiencies for these entities. BDO’s international structure is well spread, and in-country partners/ managers are responsive and solution centric. Teams, under your leadership, have demonstrated great knowledge and coordination in driving international statutory audits that are centrally managed by our India Centre. We look forward to our continued partnership”

Vice President - Finance

US headquartered global professional services firm focused on delivering digital transformation

CLIENT TESTIMONIALS

First, and most important of all, we see the engagement partner as a trusted partner on whom we can rely for a robustly designed and executed audit and for candid assessments of where strengthening in our personnel, reporting processes and other improvements may be required. As such, we take comfort in the assistance provided to us on the proper exercise of our oversight function. We are confident that the partner has a sound understanding of our business, owing to the assessments undertaken of its risks, that are factored in the design of the audit plan. The partner and the team have consistently made themselves available to the management and the audit committee in this regard and we are grateful. We are also very appreciative of the effort expended by the entire team in getting our 2020 audit completed on time when some last minute surprises could have required an extension. So, a big thank you from the audit committee.

Albert Aboody
Chair- Audit Committee
Startek Inc

Our audit engagement transition from a US Audit Firm to BDO was outstanding. An audit transition can often be stressful, but the BDO Team made it seamless and stress-free. Their professional attitude, unparalleled responsiveness, objectivity, timeliness, and willingness to share knowledge and resources on various accounting issues allowed management to make timely, sound, and informed decisions. I want to thank our audit engagement team and the Partners for executing a well-thought-out, practical, and targeted approach to audit.
